FROM : Chief, Technical Accounting Staff

SUBJECT: Reports Management Program

25X1A9a

1. Messrs. [REDACTED] dropped in today to inquire concerning the plans of this Office with respect to establishing the proposed Reports Management Program within the Office. I advised them that this matter has been temporarily shelved because of the pressure of other urgent problems including the survey by the IG and that further consideration would be given to the question of implementing the program after your return.

2. We should perhaps discuss this matter at an early date to ascertain what should be done with regard thereto.
